# **USB Sensor Interface**

For strain gauge, potentiometric, DC/DC and Pt100 sensors

**Model 9206** 

Code: 9206 EN

Delivery: ex stock/1 week

Warranty: 24 months

USB multi sensor interface in housing

## **Application**

In the field there is a frequent need to measure sensor readings rapidly and easily right at the sensor and to transfer them directly to a PC without additional amplifiers or converters. The 9206 USB sensor interface can satisfy this requirement admirably, thanks to its "plug & measure" design. The USB connection means installation could not be simpler.

## Typical applications:

- ► Mobile test measurements via laptop
- Laboratory test set-ups
- ► Instrumentation and control
- Diagnostic measurements in the chemical industry
- ▶ PC-based recording of expansion figures in bio engineering

- Inexpensive "Plug & Measure" design
- Simple connection via PC USB port
- Measurement accuracy < 0.05 % F.S., optional 0.01 % F.S. incl. DAkkS
- 24 bit resolution
- 6 wire technology for the highest precision
- High-speed measurement of up to 1200 readings/sec.
- Convenient configuration and analysis software DigiVision for max. 32 measurement channels
- Pt100 as option
- LabVIEW, DASYLab and DLL drivers free of charge

## **Description**

"Plug & Measure" is the concept of the USB sensor interface 9206. Whether as a 1 channel In-Line version or as a multi-channel solution in a desktop housing, the 9206 provides high-performance and cost-effective measured value acquisition for analog sensors such as full-bridge strain gages and potentiometric sensors , DC/DC transmitter and Pt100 sensor.

With the DigiVision measurement software included in the scope of delivery, the USB sensor interface can be flexibly parameterized for your measurement task. The software offers extensive functions for recording, displaying and log-ging measurement data.

With the LabVIEW and DLL driver packages available free of charge, the USB sensor interface can be flexibly integrated into your own programs. Whether in the laboratory as a table-top device or in a harsh environment as a 1 channel In-Line IP67 version, the USB sensor interface can be used in many ways. The 9206 in a desktop case with an increased measuring accuracy of 0.01 % F.S. is suitable for precision applications with DAkkS certificate.

## **Technical Data**

## Connectable sensors

## Strain gauge

 $350~\Omega~...~5~k\Omega$ Bridge resistance: Connection system: 6 wire Sensitivity: 0 ... 50 mV/V 2.5 V / 5 V Sensor excitation: **Excitation current:** max. 45 mA Measurement: ± 0.05 % F.S.

### Potentiometer

Connection system: 3 wire Resistance:  $1 \text{ k}\Omega \dots 5 \text{ k}\Omega$ 5 V Measurement signal: 5 V Sensor excitation: Excitation current: max. 45 mA Measurement error: ± 0.05 % F.S.

## Transmitter and DC/DC sensors

Sensor excitation: 12 V **Excitation current:** 80 mA ± 10 V Measurement signal: Measurement error: ± 0.05 % F.S.

## **Temperature Pt100**

Sensors: Pt100 Range: - 200 ... + 600 °C 0.1 K Accuracy: Measuring rate: max. 2 measurements/s

## General amplifier data

Resolution: 24 bit

Measuring rate ecxept Pt100:

up to 1200 measurements per second only with software 9206-P100 or 9206-P200

up to 200 measurements per second and 1 measuring channel with 9206-P001

Input resistance: > 1 GΩ Temperature coefficient: 20 ppm/K Environmental temperature range: 0 ... + 60 °C Storage temperature: - 40 ... + 70 °C

In-Line housing

Zero drift:

Material: Aluminium Dimensions: 115 x 25 [mm] 200 g Weight: Protection class: IP67 (PG) / IP40 (12 pin socket) Mounting method: screw clamp Power supply: via USB-plug 4 V ... 6 V Cable length from sensor to 9206: max. 3 m PG 7 / 12 pin socket (mating connector 9941) Sensor connection:

**Desktop housing** 

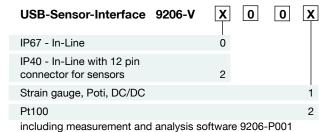

USB connection:

Aluminium Material: Dimensions: 210 x 150 x 90 mm Protection class: Power supply: 90 ... 230 VAC / 11 ... 30 VDC USB connection: slaveport (Type B) Sensor connection: 9 pole Sub min D yes / rated voltage 50 V Isolation: Display: status LED Energy input: max. 30 VA

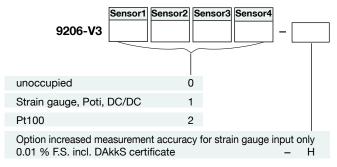

## Software DigiVision

System requirement: Windows 7, 8.1, 10

### **Order Code**

## USB multi sensor interface - in housing

9206-V3xxxx including measurement and analysis software 9206-P100

## **Order Information**

## An example for ordering a desktop case version

Desktop case version with 2 USB sensor interfaces for strain gauge sensors and 2 USB sensor interfaces for Pt100 sensors.

The software DigiVision 9206-P100 is included Model 9206-V31122

## Adjustment of a measurement chain

Consisting of sensor and

USB sensor interface incl. test certificate **92ABG** 

## Accessories

 $< 0.1 \mu V/K$ 

Type A, cable length 2.8 m

Configuration and evaluation software DigiVision for 1 channel measurement and 200 measurements/sec.

Model 9206-P001 (included in scope of delivery)

Configuration and evaluation software DigiVision for multi-channel measurement. The software can display up to 16 USB Sensor Interfaces parallely. Up to 1200 meas./sec. are possible, no mathematic functions or calculation Model 9206-P100

Configuration and evaluation software DigiVision for multi-channel (displays up to 32 measurement curves at the same time) and measurement, up to 1200 meas./sec. possible. Measurement results can be offset against each other via freely programmable mathematic Model 9206-P200 measuring channels.

Connecting cable, 12 pin female connector

Model 99540-000A-0150002 one end open for 9206-V0001

Connecting cable, 9 pin Sub-D female connector

one end open for 9206-V0001 Model 99609-000E-0150002

DAkkS certificate for the DMS measurement range of the 9206-V03xxxx-H, for 1 measuring channel, for the option of the accuracy of 0.01% F.S. Model 92DKD-9206-V3H

12 pin connector for In-Line Model 9941

9 pin connector for desktop unit Model 9900-V209

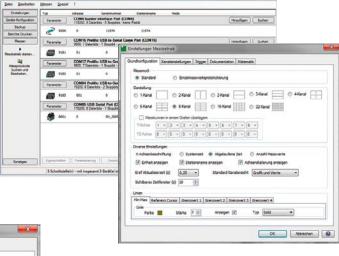

# 206 EN

## DigiVision Configuration and Analysis Software

## **General Software Data**

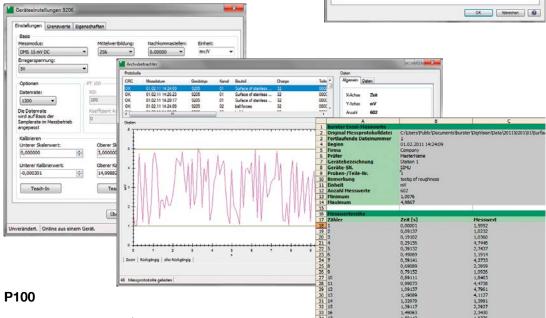

- ► Convenient device finder
- Instrument parameterization
- Instrument data adopted automatically, e.g. scaling, limit settings
- ► Back-up function for instrument data
- ▶ Simultaneous display of up to 16 measurement channels
- ▶ Different measurement rates can be combined
- ► Different triggers can be set: global or channel-specific
- ► Creation of instrument groups
- ► Report finder for locating group reports and individual reports
- Documenting individual measurement curves with various options e.g. serial number, batch counter, day counter

- Functions like tare and reset min/max values switchable in measuring mode
- Export function to Excel
- ► Communication with a controller unit (PLC etc.) via RS232 or Ethernet

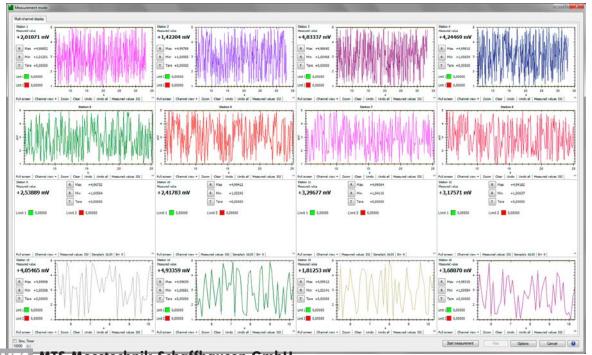

## Software DigiVision P001

► 1 interface with up to 200 measurements/s

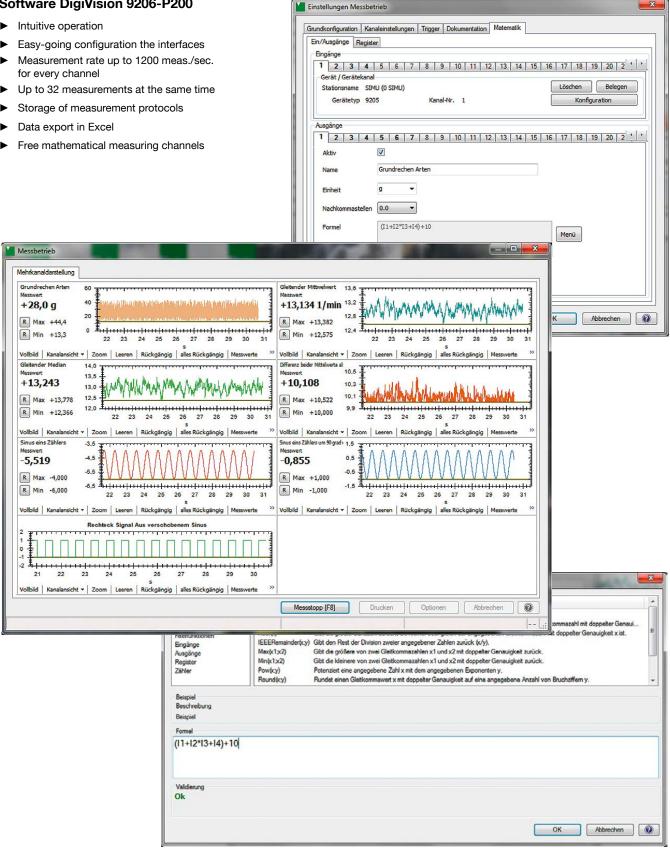

# Software DigiVision P100

▶ max. 16 channels with up to 1200 measurements/s

# Software DigiVision 9206-P200

## **Typical Applications**

- Differential measurements
- Averaging of the measurement results
- Determination of efficiency in engine test

- Determine mass moment of inertia
- Determine the frictional force
- Comparison of different measurement readings
